

APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office. NOV 15 1982

Returned to applicant for correction.....

Corrected application filed.....

Map filed. NOV 19 1982 under 46352

The applicant Nevada Division of State Parks

Capitol Complex, of Carson City,
Street and No. or P.O. Box No. City or Town

Nevada 89710, hereby make application for permission to appropriate the public
State and Zip Code No.
waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

1. The source of the proposed appropriation is underground source in Clark County
Name of stream, lake, spring, underground or other source

2. The amount of water applied for is .85 second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet.....

3. The water to be used for recreation (Nevada Division of State Parks)
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated:.....

(b) Stockwater, state number and kinds of animals to be watered:.....

(c) Other use (describe fully under "No. 12. Remarks").....

(d) Power:

(1) Horsepower developed.....

(2) Point of return of water to stream.....

5. The water is to be diverted from its source at the following point: NW¼ NE¼ Section 9, T19S, R60E
Describe as being within a 40-acre subdivision of public
M.D.B. & M., or at a point from which the N¼ corner of said Section 9 bears N51°
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.
32'W, a distance of 565.3 feet.

6. Place of use S½ SW¼ of Section 3, S½ of Section 4, W¼ NE¼, NW¼ SE¼, N½ SW¼, S½ NW¼
Describe by legal subdivision. If on unsurveyed land, it should be so stated.
and a portion of the NE¼ NW¼ of Section 9, T19S, R60E, M.D.B. & M., excluding that
part of the NE¼ NW¼ of Section 9 which lies to the west of Tule Springs Road.

7. Use will begin about January 1 and end about December 31, of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) water is diverted from the well by a pump and
State manner in which water is to be diverted, i.e. diversion structure, ditches and
transmitted via pipelines to a steel storage tank for distribution or to Tule Lake.
flumes, drilled well with pump and motor, etc.

9. Estimated cost of works existing (no modifications)

10. Estimated time required to construct works the well is constructed to a depth of 706' with 16"
If well completed, describe works.
(21 feet), 14" (68 feet) and 12" (631 feet) steel casing.

11. Estimated time required to complete the application of water to beneficial use Five (5) years

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

This well furnished water to either the domestic, fire protection and drip irrigation systems or a series of 4 lakes for recreation and irrigation, (the turf irrigation system draws water from Tule Lake) for the Nevada State Parks System's Floyd Lamb Park near Las Vegas. This application requests an increase in the diversion rate of the existing well (see 10991) from 1.00 cfs to 1.85 cfs. This increased diversion rate is necessary to provide water to the water system at a sufficient rate to meet fire protection requirements of the fire department. Also, the rate is congruent with the existing pumping equipment. The increased diversion rate is not considered adverse to the

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights and is further subject to revocation if and when water can be furnished by an entity such as a water district or a municipality engaged in furnishing water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. It is understood that this right must allow for a reasonable lowering of the static water level. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The total combined duty of water under permits 46352, 46353, 46354, 46355, 46356, 46357, and 46358 shall not exceed 852 acre-feet annually.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.85 cubic feet per second, but not to exceed 615.4 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before February 21, 1985

Proof of completion of work shall be filed before March 21, 1985

Application of water to beneficial use shall be made on or before February 21, 1988

Proof of the application of water to beneficial use shall be filed on or before March 21, 1988

Map in support of proof of beneficial use shall be filed on or before March 21, 1988

Completion of work filed APR 1 1985 IN TESTIMONY WHEREOF, I PETER G. MORROS,

State Engineer of Nevada, have hereunto set my hand and the seal of

Proof of beneficial use filed _____ my office, this 21st day of FEBRUARY,

groundwater basin in this area because of the well's infrequent operation since it pumps into a 67,600 gallon steel storage reservoir and further, since the total annual duty of all wells furnishing water to the Park is limited to the original certificated duty of 864 acre feet.

A maximum of 10 acre feet per year of the Parks total duty (864 AFY) shall be allocated to the Nevada Division of Forestry nursery located within the place of use stated herein.
